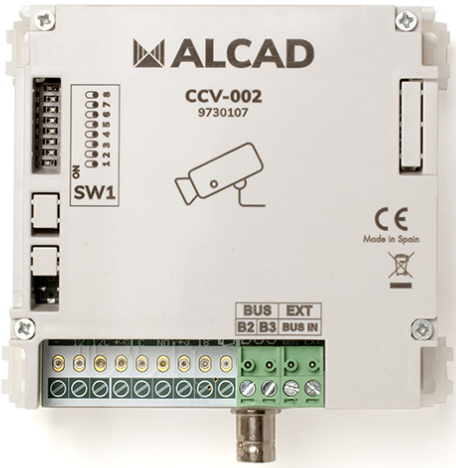
2-WIRE EXTERNAL CAMERA ADAPTER



Code : **9730107**

Model : **CCV-002**

Description
Device designed to integrate a CCTV camera into a 2-wire video door entry system.
It is configured as an additional entrance within the system and, using the self-start function, allows users to view communal areas such as lifts, letterboxes or other areas requiring monitoring.
It features a DIN rail mounting system for installation in electrical cabinets and a BNC connector for connecting the CCTV camera.
To optimise video signal matching, we recommend installing a BNC CCTV balun (*) at each end of the video line.
(*) BNC CCTV baluns not included.
(**) CCTV camera and power supply not included.
