998 MECHANICAL ACCESSOIRES

RING AND CLAMP

Code : **9980011**

Model : **JV-335**

Description
Material for the installation of guy wires in masts, telescopic masts or towers of great length.

Applications
The wire ropes are fixed to the mast by means of a ring clamp for masts up to Ø40 mm or are fixed directly to the three tubes of the tower. Ring-headed expanding bolts are used to secure them to the floor or roof.

Characteristics
Steel wire ropes of Ø3 mm. Wire rope grips for wire ropes of Ø3 mm and Ø6 mm and turnbuckles.
