941 SENSORS AND ACTUATORS

BED CALL UNIT CALL BUTTON & CONNECTOR

Code : **9410256**

Model : **LLC-407**

Description
Rectangular room peripheral with DIN8 connector for handset (LLC-71x) and help button with red LED indicator. It allows launching a call from the connected handset or the base itself (LLC-71x). The peripheral has a disconnection sensor, which will initiate a call for help in case of disconnection of the handset..
