IP BASE DECT PHONE

Code : **9420031**

Model : **TFD-121**

Description
Wireless DECT telephone with IP base, with a modern and attractive design, and land line. The slim and ergonomic terminal fits easily into the hand. Simple operation thanks to the practical and intuitive menu. Colour screen. Up to 12 hours conversation. Integrated with the ALCAD NURSE CALL system. Includes caller identification and allows calls to other internal extensions or outside numbers. It also includes a dual function mode, which allows switching from IP telephony to POTS just by pressing one button. Possibility of simultaneous calls - up to 2 VoIP calls and 1 landline at the same time.
