LICENSE SERVER - ACCURO

Code : **9440100**

Model : **SWG-200**

Description
License for ACCURO nurse call communication system, a 100% IP telecommunications and security platform for health and social care centers, also can be integrated with third-party systems.

ACCURO allows:
- Voice communication with patient
- Management and monitoring of alarms and events in real time.
- Access to records and editing of information.
? Report generation.
- Access through multiple platforms (W10, Android, IOS, ...)

- ACCURO VIEWER. Among other features, thanks to its traceability it is possible to obtain user supervision reports/statistics and flow and load management. Likewise, it offers the display of calls and alarms in a 'map' format, indicating, for example, the alarm levels and the presence of the inmate in the cell. From Viewer you can also record the actions carried out by the staff, as well as document the reasons for help (emergencies, discomfort, AVD support, etc.) with a simple click from your mobile device or tablet. Thus, key time is saved to be dedicated to caring for people. These actions are integrated with the center's management software, or other programs (to be studied). Finally, Viewer allows you to extract and view reports in Excel or PDF of average action times per employee, per item, per cell, per area, etc.; as well as knowing the time and number of performances.

- ACCURO MANAGER. Can be integrated into the center's HIS (HIS/RIS in the case of nursing homes), for example, it can be connected to hospital or nursing home management systems via XML files (integration with RESIPLUS in the case of nursing homes), the analysis of all the elements of the system, know the status of all the elements of the system, make backup copies and software updates.
