IR DONGLE STB-130

Code : **9450114**

Model : **IRD-130**

Description
Model IRD-130 is an IR dongle for the STB-130 set-top box. This dongle receives the commands of the remote control and transmits them to the set-top box, so that the STB can be placed in the most appropriate place within each installation; for example, out of reach of hotel customers.
