CALL CANCELLATION BUTTON

Code : **9410334**

Model : **LLC-133**

Description

Call cancellation button. This device allows security staff to cancel a call made from public toilets (WC), common areas or shelter areas.

Flush or surface mount, compatible with EU flush boxes.

Applications

Designed to be installed in security control rooms or corridors (in cases where pagers or DECT/IP phones are not installed). This device belongs to ACCUROrefugium system, which complies with Spanish building regulations DB-SUA9 and DB-SI3 included in CTE (Código Técnico de Edificación) mandatory to be applied in every non-residential building since December 2017.
