941 SENSORS AND ACTUATORS

AUDIO. COM. UNI. BUS 1 BLUE 1 CAN.

Code : **9415028**

Model : **MCA-947**

The two-way communication module provides excellent voice communication in those places where it is needed, without the need for a bulky room switch nearby.
In addition, the module has a blue call button to request assistance from a doctor and another blue button with a cancellation blade.
The MCA-xxx modules can be installed at multiple points and controlled by a single control terminal (CHC-401 or CHC-231), which allows sensitive material to be moved away from the communicator installation point and obtain a high degree of protection and security.
Alcad's communication module can be combined with other ACCURO or LIVERO elements to offer a complete ecosystem.

CÓDIGO	9415028
MODELO	MCA-947
DIMESIONES	75 x 120 x 45 mm
ALIMENTACION	24VDC
ACABADO	ABS
PULSADOR	Botón azul: Llamada a doctor Botón azul con aspa: Cancelación
TEMPERATURA DE FUNCIONAMIENTO	De 5°C a 55°C
GRADO DE PROTECCION	IP42
PRESION DE SONIDO	85dB
ALTAVOZ	8 ohm, 1,5W
SIPV2	Session Initiation Protocol Version 2
CÓDEC	G.711 (Ley A) (64 Kbps)
CONECTOR	RJ-45 /RS-485
