941 SENSORS AND ACTUATORS

AUDIO COM. UNI. BUS PULL CORD CANC.

Code : **9415032**

Model : **MCA-921**

Description:
Wall-mounted bathroom pull-cord unit with audio, equipped with two buttons (call and cancel) and a call cord. Easy to clean thanks to the antibacterial coating on its front panel. Its two-way communication module provides voice communication and allows a call to be initiated by pulling the red cord or pressing the red call button. The call is cancelled using the button marked with a cross.
MCA-xxx modules can be installed at multiple points and managed from a single CHC-401 control unit, allowing sensitive equipment to be kept away from the communicator installation point and thereby increasing protection and security.

CÓDIGO	9415032
MODELO	MCA-921
DIMESIONES	75 x 120 x 45 mm
ALIMENTACION	24VDC
ACABADO	ABS
PULSADOR	Rojo: Llamada Rojo con un aspa: cancelación de llamada
