941 SENSORS AND ACTUATORS

AUDIO. COM. UNI. DIN8 1 GREEN BUTTON

Code : **9415030**

Model : **MCA-902**

Description:
RS-485 (bus) touch-operated bed unit with audio, one presence button, a green reassurance LED and a female DIN-8 connector compatible with LLC-75x call handsets. Easy to clean thanks to the antibacterial coating on its front panel. It provides voice communication and allows presence to be registered using the green button.
The MCA-xxx modules can be installed at multiple points and managed from a single CHC-401 control unit, allowing sensitive equipment to be kept away from the communicator installation point and thereby increasing protection and security.

CÓDIGO	9415030
MODELO	MCA-902
DIMESIONES	75 x 120 x 45 mm
ALIMENTACION	24VDC
ACABADO	ABS
PULSADOR	Verde para presencia y cancelación
