979 HOME AUTOMATION

3 IPAL WIRELESS TOUCH SWITCHES

Code : **9790003**

Model : **MEC-103**

Square touch switch with glass type finish. Three on and off buttons

Its great functionalities are not at odds with its sophistication: the range of digital home devices compatible with the IPAL system makes it possible to quickly and easily convert any home into a modern and elegant digital home: lighting control mechanisms, curtains and blinds; smoke or motion sensors; smart plugs and save energy. Its glass-like finish, in white, underlines a discreet design that combines with any decoration. The capacitive keyboard, by reducing the possibility of mechanical breakdowns, prolongs its useful life while facilitating its cleaning.
