979 HOME AUTOMATION

IPAL WIRELESS BOILER THERMOSTAT

Code : **9790014**

Model : **TER-000**

The intelligent thermostat for boiler allows to save energy, personalizing the environment of a room according to the hours of the day. It is possible to change the temperature at any time, even remotely through the free Smart-Life APP, available for Android and iOS
It works independently.

CÓDIGO-CODE-CODE		9790014
MODELO-MODEL-MODÈLE		TER-000
Función Function Fonction		Termostato Inteligente para caldera Plug Fiche
Materiales Materials Matériau		PC+ABS
Color Colour Couleur		Blanco White Blanc
Display Display Affichage		LCD retro iluminado Backlit LCD LCD rétroéclairé
Comunicación Communication Communication	MHz	WiFi 2,4
Alimentación Power supply Alimentation	VAC	95-240 - 50/60Hz
Consumo Consumption Consommation	W	< 1,5
Corriente máx (Contacto seco) Dry contact maximum current Courant max. (contact sec)	Amp	3
Rango de ajuste Setting temperature range Plage de réglage	ºC	5-35
Montaje Installation type Montage		Empotrado en caja de mecanismos estándar Flush mounted in standard mechanism box Encastré dans un boîtier de mécanisme standard
Temperatura de funcionamiento Temperature range Température de fonctionnement	ºC	0 ,,, +55
Dimensiones exteriores Dimensions Dimensions extérieures	mm	86 x 86 (ancho x alto) 86 x 86 (width x height) 86 x 86 (largeur x hauteur)
