IPAL WIRELESS SMOKE SENSOR

Code : **9790012**

Model : **WSN-300**

Wireless RF smoke sensor with a red led and warning buzzer.
It works on battery and has a sound power of 85dB / 3m
Smoke range 60m2

Its great functionalities are not at odds with its sophistication: the range of digital home devices compatible with the IPAL system makes it possible to quickly and easily convert any home into a modern and elegant digital home: lighting control mechanisms, curtains and blinds; smoke or motion sensors; smart plugs and save energy. Its glass-like finish, in white, underlines a discreet design that combines with any decoration. The capacitive keyboard, by reducing the possibility of mechanical failure, prolongs its useful life while facilitating its cleaning.
