941 SENSORS AND ACTUATORS

TAG IP67 FOR NEONATES

Code : **9415060**

Model : **SDI-117**

DESCRIPTION

Bracelet with low energy nRF52 Bluetooth tag and beacon for location and control of neonates with anti-cut sensor.

This bracelet has multiple sensors that allows the location of newborns in real time thanks to Bluetooth system, emergency call through a touch button on its surface and a device cut detection system to prevent theft in the facilities.

CÓDIGO-CODE-CODE	9415060
MODELO-MODEL-MODÈLE	SDI-117
Color pulsera Wristband color	Blanco White blanc
Material Material Matériel	TPU + ABS
Tecnología Bluetooth Bluetooth technology Technologie Bluetooth	nRF52 (BLE5.0)
Batería Battery Batterie	CR2025
Vida útil batería Battery lifetime Durée de vie de la batterie	4 meses (intervalo de transmisión cada segundo) 4 months (transmission interval every second) 4 mois (intervalle de transmission toutes les secondes)
Sistemas de aviso Warning systems Systèmes d'alerte	Sistema de localización, botón de llamada y detección de corte Location system, call button and cut detection Système de localisation, bouton d'appel et détection de coupure
Índice de protección Protection Protection	IP67
Rango transmisión Transmission range Plage de transmission	50m campo abierto 50m open space Espace ouvert de 50m
Temperatura operacional Operating temperature Température de fonctionnement	-40°C to +70°C
Opciones Options Options	Botón de click Click button Bouton de cliquez
Dimensiones size dimensions	Dia 30mm* 250mm
Peso Weight Poids	16gr
