963 DOOR ENTRY SYSTEM MONITORS

WHITE 7" IPAL MONITOR

Code : **9630090**

Model : **MVC-231**

Description

Its new neutral and minimalist design combines perfectly with any kind of decoration in your home, from the most classic to the most avant-garde. The modern capacitive technology used for the touch buttons ensures a reliable and long-lasting operation, and as there are no electrical contacts or moving parts, the accumulation of dirt that affects the operation of traditional push-buttons is avoided. The MVC-231 monitor has a very useful function so that nobody interrupts your rest time: the "Don't disturb" function. Its large 7-inch flat screen allows you to identify the person making the call with total clarity and security.

CODE		9630090
MODEL		MVC-231
