974 ACCESSORIES FOR ENTRANCE PANELS

DOUBLE RAIN-SHIELD SURFACE BOX 11-12 ROW

Code : **9740150**

Model : **VIS-226**

Description
Accessory for entrance panel. Use rainshields to protect the entrance panel from inclement weather, such as rain or snow.

There are visors for single, double or triple plates, so it is possible to combine several entrance panels,. There are also rainshields for panels mounted on a flush-mounted box or on a surface box. Remember that to align the panel perfectly you have to use separators for flush-mounted box or for surface box.

It is also recommended to seal the rainshield to the wall with a joint sealing compound or silicone, depending on the material of the façade.
