974 ACCESSORIES FOR ENTRANCE PANELS

IVANDAL FLUSH-MOUNTED BOX 10 STOREY

Model : **CMO-210**

Description

To embed an entrance panel to the wall, it is necessary to previously place a flush-mounted box where we will later fix the panel. This box is made of steel. For iVANDAL series entrance panels. It has supports to hold and fold the entrance panel during installation, thus facilitating the work of connection and commissioning of the elements of the panel.
