975 DOOR ENTRY SYSTEM CABLES

OPTIMIZED SCREENED CABLE 2X1 MM2

Code : **9750009**

Model : **CAB-307**

Description

Alcad supplies this cable specially designed for 2-wire system installations. Its frequency characteristics make it ideal for any installation, minimizing signal losses at the frequencies in which the video door entry system works. This cable also has a metal screen that prevents possible interference in complicated environments and provides greater robustness to the cable.
