# 980 COMPLETE MODULES

## ENTRANCE PANEL KEYPAD FOR ACCESS CONTROL

Code : **9800006**

Model : **PNK-00000**

Description

L201 series entrance panel with keypad for access control. Keypad for installations where it is required to control the opening of up to two doors, dialling a previously-defined code of 4, 5 or 6 digits. It is posible to define as many as 99 codes per door. It is also posible to configure the length of time the electric lock is activated for each code. Possesses a safety system which disables the keyboard after a number of consecutive attempts to enter an incorrect code to open the door or to access the programming menu.
